Summary:	<i>Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of his or her employment. Under the workers' compensation system, existing law establishes a return-to-work program for the purpose of making supplemental payments to workers whose permanent disability benefits are disproportionately low in comparison to their earnings loss. Existing law funds this program with \$120,000,000 per year derived from the Workers' Compensation Administration Revolving Fund. Existing law requires the director to determine eligibility for payments and the amount of payments, as specified. This bill would require the director to have the program distribute the \$120,000,000 annually to eligible workers, as specified, and would require, commencing with the end of the 2017 calendar year, that any remaining program funds available after the above-described supplemental payments are made be distributed pro rata to those eligible workers, subject to a \$25,000 limit per calendar year. The bill would prohibit a person, including an attorney, from collecting a fee or commission for providing assistance to a worker to apply for benefits provided by the program.</i>

Summary:	<i>The California Constitution authorizes a county to make and enforce within its limits all police, sanitary, and other ordinances and regulations not in conflict with general laws, and existing law establishes the procedure by which counties may enact ordinances. Under existing law, violation of a county ordinance is generally a misdemeanor, unless by ordinance it is made an infraction. This bill would increase the maximum amount of a fine for a violation of an event permit requirement, as defined, to \$150 for a first violation, \$700 for a 2nd occurrence of the same violation by the same owner or operator within 3 years, and \$2,500 for each additional occurrence of the same violation by the same owner or operator within 3 years. Summary:	Existing law establishes the State Water Resources Control Board and the California regional water quality control boards as the principal state agencies with authority over matters relating to water quality. Existing law required the State Department of Public Health to, on or before December 31, 2013, adopt uniform water recycling criteria for indirect potable reuse for groundwater recharge. Existing law also required the department to develop and adopt uniform water recycling criteria for surface water augmentation, as defined, by December 31, 2016, if a specified expert panel found that the criteria would adequately protect public health, and required the department to investigate the feasibility of developing uniform water recycling criteria for direct potable reuse and to provide a final report on that investigation to the Legislature by December 31, 2016. Existing law defined the terms "direct potable reuse" and "surface water augmentation" for these purposes. Existing law transferred these powers and responsibilities to the State Water Resources Control Board on July 1, 2014. This bill would specify that "direct potable reuse" includes "raw water augmentation" and "treated drinking water augmentation." The bill would change the term "surface water augmentation" to "reservoir water augmentation" and would redefine that term to mean the planned placement of recycled water into a raw surface water reservoir used as a source of domestic drinking water supply for a public water system or into a constructed system conveying water to such a reservoir. This bill contains other related provisions and other existing laws.

Summary:	Existing law provides for apprenticeship programs within the Division of Apprenticeship Standards, which is within the Department of Industrial Relations. Existing law requires an apprentice employed on a public works project to be paid the prevailing rate of per diem wages for apprentices in the trade to which he or she is registered. Existing law requires a contractor who employs apprentices on a public works project to contribute specific funds to the California Apprenticeship Council that are used by the council to fund grants to approved apprenticeship programs for the purpose of training apprentices and pay certain expenses of the Department of Industrial Relations. This bill would require an apprenticeship program, to be eligible to receive grant funds from the council, to agree to keep adequate records that document the expenditure of those grant funds and make all records available to the department so that the department is able to verify that grant funds were used solely for training apprentices. The bill would also require the department to verify that grants made by the council are used solely for training apprentices. The bill would prohibit an apprenticeship program that is unable to demonstrate how grant funds are expended or an apprenticeship program that is found to be using grant funds for purposes other than training apprentices from being eligible to receive any future grant from the council under these provisions and would authorize the department to initiate the process to rescind the registration of the apprenticeship program.

Existing law authorizes the assessment of a civil penalty against an employer or physician if a pattern or practice of violations or a willful violation of these or other specified provisions is found, as specified. Summary:	Existing federal law establishes the standard time of the United States for each of 9 zones and advances the standard time of each zone by one hour during the period commencing at 2 a.m. on the 2nd Sunday of March of each year and ending at 2 a.m. on the first Sunday of November of each year. Existing state law, the Daylight Saving Time Act, which was adopted as an initiative measure by the voters at the November 8, 1949, special election, provides that the standard time within the state is that which is known, described, and designated by federal law as United States Standard Pacific Time. Summary:	<p>Existing law creates a Best Value Construction Contracting Pilot Program for the Regents of the University of California to award construction contracts based on the best value procedures, as specified. Existing law requires the regents to adopt and publish procedures and required criteria, as specified, that ensure that all selections are conducted in a fair and impartial manner. Existing law requires bidders to verify specified information under oath. Existing law repeals these provisions on January 1, 2018. This bill, with certain exceptions, would prohibit a best value contractor from being prequalified or shortlisted unless the best value contractor provides an enforceable commitment to the regents that the best value contractor and its subcontractors at every tier will use a skilled and trained workforce to perform all work on the project or contract that falls within an apprenticeable occupation in the building and construction trades, in accordance with specified skilled and trained workforce requirements. The bill would require a contractor, bidder, or other entity that commits to using a skilled and trained workforce to complete a contract or project also to provide a monthly report demonstrating compliance with these provisions. The bill would eliminate the repeal date for the pilot program, and by doing so, would extend the requirement that bidders verify specified information under oath, and impose a state-mandated local program by expanding the scope of an existing crime. This bill contains other related provisions and other existing laws.</p>

Existing law provides for civil penalties and for recovery of attorneys fees, costs, and filing fees by a successful claimant under these provisions. Summary:			

Existing federal law, the federal Patient Protection and Affordable Care Act (PPACA), enacts various health care coverage market reforms that took effect January 1, 2014. Among other things, PPACA requires each state, by January 1, 2014, to establish an American Health Benefit Exchange that facilitates the purchase of qualified health plans by qualified individuals and qualified small employers. Existing state law establishes the California Health Benefit Exchange (the Exchange) within state government for the purpose of facilitating the enrollment of qualified individuals and qualified small employers in qualified health plans, and specifies the powers and duties of the board governing the Exchange. Existing law requires the board to establish the Small Business Health Options Program, otherwise referred to as the SHOP Program, separate from the activities of the board related to the individual market, to assist qualified small employers in facilitating the enrollment of their employees in qualified health plans offered through the Exchange in the small employer market in a manner consistent with a specified provision of the federal act. Summary:	Existing law requires employers to provide itemized statements to employees at the time wages are paid that show, among other things, gross wages earned and total hours worked. Existing law requires the itemized statements for employees who are compensated on a piece-rate basis to state separately the total hours of compensable rest and recovery periods, the rate of compensation, and the gross wages paid for those periods during the pay period, among other things. Summary:	(1) Existing law, the Contractors' State License Law, provides for the licensure and regulation of contractors by the Contractors' State License Board. This bill would authorize the registrar to issue a written and detailed letter of admonishment to an applicant, licensee, or registrant instead of issuing a citation if, upon investigation, the registrar has probable cause to believe that a licensee, registrant, or applicant has committed acts or omissions that are grounds for denial, suspension, or revocation of a license or registration. Summary:	<i>(1)Existing law provides authority for an enforcement agency to enter and inspect any buildings or premises whenever necessary to secure compliance with or prevent a violation of the building standards published in the California Building</i>					

Standards Code and other rules and regulations that the enforcement agency has the power to enforce. This bill would require an inspection of building assemblies and associated waterproofing elements, as defined, including decks and balconies, for buildings with 3 or more multifamily dwelling units by a licensed architect, licensed civil or structural engineer, or an individual certified as a building inspector or building official, as specified. The bill would require the inspections, including any necessary testing, to be completed by January 1, 2023, with certain exceptions, and would require subsequent inspections every 6 years, except as specified. The bill would require the inspection report to contain specified items and would require that a copy of the inspection report be presented to the owner of the building within 45 days of the completion of the inspection. The bill would require that if the inspection reveals conditions that pose an immediate hazard to the safety of the occupants, the inspection report be delivered to the owner of the building within 15 days and emergency repairs be undertaken, as specified, with notice given to the local enforcement agency. The nonemergency repairs made under these provisions would be required to be completed within 120 days, unless an extension is granted by the local authorities. The bill would authorize local enforcement agencies to recover enforcement costs associated with these requirements. The bill would require the local enforcement agency to send a 30-day corrective notice to the owner of the building if repairs are not completed on time and would provide for specified civil penalties and liens against the property for the owner of the building who fails to comply with these provisions. The bill would authorize a local governing entity to enact stricter requirements than those imposed by these provisions. (2) The Davis-Stirling Common Interest Development Act defines and regulates common interest developments, which include community apartment projects, condominium projects, and stock cooperatives. The act requires the homeowners association to maintain the common areas of the development. This bill would require the board of directors of a common interest development, at least once every 6 years, to have an inspection conducted by a licensed architect, licensed civil or structural engineer, or an individual certified as a building inspector or building official, as specified, of the building assemblies, as defined, that the association is obligated to repair, replace, restore, or maintain. The bill would require the inspections, including any necessary testing, to be completed by January 1, 2023, with certain exceptions, and would require subsequent inspections every 6 years. The bill would require the inspection reports to contain specified items. The bill would require that the results of the report be used in calculating the reserve study for the development, as specified. The bill would require the inspection report to be presented to the association within 45 days of the completion of the inspection and would require copies of the reports to be permanently maintained in the association's records. The bill would require that if the inspection reveals conditions that pose an immediate hazard to the safety of the occupants, the inspection report be delivered to the association within 15 days and emergency repairs be undertaken, as specified, with notice given to the local enforcement agency. Nonemergency repairs made under these provisions would be required to be completed within 180 days, unless an extension is granted by the local authorities. The bill would, with regard to a condominium conversion, require an inspection be completed prior to the close of escrow on the first separate interest and would require the disclosure of the results of these inspections to the Bureau of Real Estate prior to the issuance of a final public report. A copy of the report would also be required to be sent to the local jurisdiction in which the property is located prior to the issuing of a final inspection or certificate of occupancy. The bill would authorize a local enforcement agency to recover its costs associated with enforcing these provisions. The bill would authorize a local governing entity to enact stricter requirements than those imposed by these provisions. The bill would provide that its provisions do not apply to those areas constituting an individual owner's separate interest or to a planned development, as defined. (3) Because this bill would impose new duties upon local enforcement authorities, it would impose a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that no reimbursement is required by this act for a specified reason.

Summary:	<p><i>The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. This measure would authorize the Legislature to exclude from classification as "newly constructed" the construction or addition, completed on or after January 1, 2019, of a rain water capture system.</i></p>
